Professional Small Business Websites

Our service

We offer professionally designed websites for small business, including all hosting, maintenance, administration, and unlimited updates throughout the year – all from the low starting price of £139 per annum for a static website. There are no setup costs, no hidden charges and no advertisements on your website.

Your website

A professionally designed website for your business, utilising the latest style technologies to ensure you project a modern image on the web.

We have no limits on the number of pages, we will create and build what is required for your business.

Your site will be hosted in one of the leading UK data centres that ensure 99.9% uptime with some of the fastest servers available.

We provide annual support and maintenance of your site included in our fees.

We offer unlimited free updates to your site throughout the year, should you need to change information, contact details, staff details, etc.

Google Maps can be incorporated on your site with your location. This feature can provide instant directions on GPS enabled smart phones.

We will provide a quotation for non-standard features, such as Adobe Flash, content management systems, e-commerce, web application developments, etc.

Featured Works and Examples

Other Key Features and Services

A domain name registration for your site, such as, www.businessname.co.uk to ensure you project a professional image on the internet.

Google Search Engine Optimisation, we abide by all Google quality standards to ensure your website can be indexed and searched by Google. Once your website is live, we progress with Google indexing and registration to ensure your site is included in Google Search and can easily be found by your customers.

Optional Google Adwords Campaign Management

We are specialists in creating and managing Google Adwords Campaigns for pay per click advertising and marketing. Whether for your existing website, or a new website development, we can provide a package tailored for you and designed to drive traffic and sales to your website with proven marketing technology, and ultimately help you realise a return on your investment.
